Second Hand Smoke lyrics

"Second Hand Smoke" I've always been in love with things that kill me Spend every night looking for a buzz Caught between the cigarettes and whiskey It's bad for me, just can't get enough The first time that I breathed you in I felt it And then you kissed my lips and I was done I never knew how hard it'd be to quit you Some days it feels like more than I can take One more kiss is all I need to get through I guess you're just a habit I can't break 'Cause every time I see your face I need one more toke Just like second hand smoke You would always be that one addiction That I can't ever seem to leave behind And I know I'll end up burned, I'm still wishing That you'd come along, start messing up my mind And, baby, I can't even be around you Without wanting you just one last time I never knew how hard it'd be to quit you Some days it feels like more than I can take One more kiss is all I need to get through I guess you're just a habit I can't break And every time I see your face I need one more toke Just like second hand smoke And, baby, I can't even be around you Without wanting you just one last time I never knew how hard it'd be to quit you Some days it feels like more than I can take One more kiss is all I need to get through I guess you're just a habit I can't break 'Cause every time I see your face I need one more toke Just like second hand smoke Second hand smoke Just like second hand smoke
